Step 1 — Power on Camera

Red and blue light flashing

1 Connect the AC adapter to your camera and plug it in.

2 If you see the blue and red lights flashing, camera waiting to connect.

3 Make sure you are within range of the same Wi-Fi network you'll use for your camera.

LED status
LED indicator shows operational status with colors. Refer to table below for detailed meaning of the LED indicator.

| Indicator Light Status	Device Status
Red lights is solid on	Power up and activating
Blue and Red lights are blinking alternately	The device is ready to connect
Blue light is blinking quickly	The device is receiving the Wi-Fi signal or connecting to the Wi-Fi
Blue light is solid on	The device is connected to the network
Red light is blinking quickly	The device is restore to factory default
Blue light goes off	The device failed to connect to the network

Step 2 — Get the App

For the best experience, download the Homeguardlive app for your smartphone by scanning the QR code below or searching for **"Homeguardlive"** in the app store.

Available on the **App Store**

ANDROID APP ON **Google play**

Step 3 — Account Register
1. Open Homeguardlive App, then select Sign up.

2. Enter your email. Create a password at least 8 characters long. Your password must include three of the following:
   - *At least one uppercase letter*
   - *At least one lowercase letter*
   - *At least one number*

3. You will receive an email with your Activation Link. Open the link to activate your account. Go back to login your account after activation successful.
Step 4 — Add device
1. Login your account and tap **"Add device"**.

2. Choose the **"Indoor Camera"** to connect.

3. Check if the camera's indicator is flashing Blue and Red. If not, Please try to reset the camera.

   Reset Method: *Keep the camera powered on for more than 1 minute, then press and hold "Reset" button until the LED turns red.*

   Hold 3~5 Seconds

Step 5 Connect to Network

1 Enter the correct Wi-Fi password.

2 This App will generate a QR code, place the QR code 3~8 inches in front of the camera lens. When the camera prompt **"QR code scanning is successful"**, press **"Next"** and wait a moment.

3 Name the camera after the Pairing is successful. Press **"OK"** to complete the add operation.

*Note:* *The camera can support both 2.4G & 5G Wi-Fi*
You're Done!

Congratulations! Your HGWIP222 Dual Camera is set up and ready to go.

You are now free to position your camera anywhere in your home where you get a Wi-Fi signal and view it remotely from anywhere in the world on your Smartphone or Tablet!
